Subject: RE: [External] AZP Sampling

Hi –

I have no concerns with you all attending the sampling event. The sampling plan is only the initial response – and attendance should be for oversight and to further develop any additional work required to complete the assessments. Hill?

Rob or Hill,

Do you have any concerns with us attending the sampling event on Wednesday? We are questioning if that gives our de facto approval of the plan, and AZP could use this to say they did a complete assessment, and, if no other samples indicate a problem, no further action is required.

Interested in your thoughts...Brent

Good Morning,

Following today's teleconference, Ken called me and suggested the use of an XRF sampling device to screen soil samples to expand the assessment. Is this a possible way of having a faster understanding of the situation at the site?

Thanks,

Javier E. García
